up to 5 Assignments

Because you won't learn programming unless you get your hands dirty

Assignments

You will be required to put your work on ww2 server or send it to me by email. Assignment instructions and due dates will be posted on the website.

1. Create an account on the Computer Science servers. See https://system.cs.fsu.edu/newuser/cs-account-setup/.
2. Email me your username so I can get you access to ww2.cs.fsu.edu. The subject should be "CGS3066 CS Account" and the body of the email should include your name and the username assigned to you by our system.

You should do this ASAP

Assignments

You will need the following software to complete the assignments:

- Text Editor such as Notepad++ or Sublime Text
- An up to date browser for testing your code. (I'll use Chrome to test your code)
- An SFTP Client
    - Windows: Secure shell or a similar program
    - Mac / Linux: FileZilla or a similar program
- Web Server software for testing changes locally. WAMP or XAMPP is pretty easy to install on any system.

Term Project

Because this will be the coolest project ever

Term Project

Term project is aimed to evaluate everything you'll learn in this course

You will be required to design and develop a fairly sophisticated dynamic website using all the concepts discussed in this course.

Can be done in groups of up to 3 students

There will be a few project proposals available for you to pick

If you can come up with a cool idea, come talk to me and we'll make it happen.
