CIS 4900 / CIS 5920  
Programming Puzzles and Competitions  
Spring 2009  
Friday 12:30-1:45 PM, LOV 103

This is intended to be a fun course that covers strategies for competing at programming contests (such as the ACM ICPC), as well as general algorithmic problem solving techniques. The course will meet once a week on Friday for 1 hour and 15 minutes during the Spring 2009 semester.

Course Instructor: Professor Ted Baker  
Teaching Assistant: Daniel Rosenthal  
Course Website: http://www.cs.fsu.edu/~baker/pc/

If you have any questions, email rosentha@cs.fsu.edu or come by LOV 207.
